**Recipient categories:** Courier services, shipping companies, Hungarian Post, Authorities, internet payment service providers, ticket portals.

## 8. Persons entitled to access the data

The data controller will not disclose the data to third parties, except to the processor(s) and recipients indicated in point 7.

### 8.5. Access to IT backup data

The Data Controller stores IT backups separately, with access control. Access to backed up data is restricted to IT operations staff with appropriate documentation and procedures. When restoring from backup, he/she has a documented procedure for the process of reviewing data restored from backup before live use.

### 8.6. Access to video surveillance system data

The recordings will not be transferred by the data controller to third parties, with the exception of the Security Service Provider indicated in point 7. Only designated employees of the controller and the data processor(s) shall have access to the recordings.

The recordings previously recorded by the electronic surveillance system can be accessed by the Data Protection Manager, the Security Manager, the IT Operator and the CEO. At the Data Subject's request, he or she shall have access to the recordings of his or her person only in the presence of one of the persons mentioned above. In all cases, access must be requested in writing from the Data Protection Officer.

In all cases, the Data Controller shall draw up a record of the fact of access, which shall be kept by the company for 1 year.

### 8.7. Persons entitled to restrict access to images from the electronic surveillance system

Restrictions on the recordings made by the electronic surveillance system may only be implemented in cases where the Data Controller has detected an event that is likely to jeopardise the purpose of the electronic surveillance system.

At the Data Subject's request, only the processing of recordings of his/her own person may be restricted. The Data Subject must request the blocking in writing to the Data Protection Officer, indicating the purpose of the blocking and its expected duration.

The Data Controller prepares a record of each step of the blocking process, which the Data Controller stores for 1 year.

### 8.8. Disclosure of data

The data controller shall not disclose to the public recordings from the electronic surveillance system.

## 9. Processing of data received from third parties

If the User/Partner does not provide his/her own data to the Data Controller, but that of another natural person, the User/Partner shall be solely responsible for the fact that the provision of the data was made with the consent, knowledge and due information of that natural person. The Data Controller is not obliged to verify their existence. The Data Controller draws the attention of the User/Partner to the fact that if the User/Partner fails to comply with this obligation and therefore the Data Subject asserts a claim against the Data Controller, the Data Controller may pass the asserted claim and the amount of the related damage to the User/Partner.

## 10. Data transfer to a third country or international organization

In the case of data transfer to countries outside the EEA, the Data Manager forwards the users' data to the following recipients as data processors in accordance with the following guarantees.

## 11. Rights of data subjects

The Data Subject may contact the Data Controller at the contact details indicated in point 1,

- may request access to a copy of his/her personal data managed by the data controller.
- may request the correction of his/her data,
- may request information about the purpose and legal basis of data management,
- may request the deletion of his/her personal data and restriction of data management.

Data subject may exercise the above rights at any time.

The Data Subject may also send to the Controller at one of the contact addresses indicated in point 1:

- may request the transfer of his/her data to another data controller, if the data management is based on a contract or consent and is handled by the Organization within the framework of an automated procedure.
- may request the withdrawal of his/her previously given consent to data management.

The Data Controller shall arrange or reject (with reasons) the notification within 1 month at the latest after the submission of the request, in exceptional cases within a longer period permitted by law. The Data Subject will be informed of the results of the investigation in writing.

### 11.5. Cost of information

The Organisation shall provide the measures and the necessary information **free of charge** for the first time.

If the Data Subject requests the same data for the 2nd time within one month and the data have not changed during this period, the Data Controller will charge an administrative fee.

- Administrative costs are calculated on the basis of the hourly cost of the current minimum wage as an hourly rate.
- The number of working hours used for information is calculated at the above hourly rate.
- Furthermore, in the case of a paper-based information request, the printing cost of the answer is at cost price and the cost of postage.

### 11.6. Refusal to provide information

If the data subject's request is clearly **unfounded**, he/she is not entitled to information, or the Organization, as a data controller, can prove that the Data Subject has the requested information, the data controller will reject the request for information.

If the data subject's request is **excessive**, in particular because of its repetitive nature, the Organisation may refuse to act on the request, if

- for the third time within one month, the Data Subject makes a request to exercise his or her rights under Articles 15 to 22 on the same subject matter.

### 11.7. Right to object

The data subject has the right to object at any time to the processing of his or her personal data on the basis of a legitimate interest or on the basis of a legal basis involving public authority.

In this case, the Organization may no longer process the personal data, unless it can demonstrate compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject or for the establishment, exercise or defence of legal claims.

If it determines that the legal basis for the objection is well-founded, it will terminate the data management as soon as possible - including data transfer and further data collection. It notifies all those to whom it previously forwarded the Data Subject's data about the objection.

The processing of the request shall be free of charge, except for unfounded or excessive requests, for which the Data Controller may charge a reasonable fee corresponding to its administrative costs. If the Data Subject does not agree with the decision taken by the Data Controller, he or she may take the matter to court.

## 12. Information on data security measures

The Data Controller manages the data in a closed system based on the requirements of the Information Security Policy.

The Data Controller ensures default and built-in data protection. To this end, the Data Controller applies appropriate technical and organizational measures in order to:

- precisely regulate access to data;

- allow access only to persons who need the data to perform the task for which it is collected, and then only to the minimum necessary for the performance of that task;
- carefully select the data processors it engages and ensure data security through an appropriate data processing contract;
- ensure the integrity (data integrity), authenticity and protection of the data processed.

The Data Controller applies reasonable physical, technical and organizational security measures to protect Data Subjects, especially against their accidental, unauthorized or illegal destruction, loss, alteration, transmission, use, access or processing. The Data Controller shall immediately notify the Data Subject in the event of unauthorized access to or use of personal data that is known to pose a high risk to the data subject.

If the transmission of Data Subject's data is necessary, the Data Controller ensures the appropriate protection of the transmitted data, for example by encrypting the data file. The Data Controller is fully responsible for the processing of Data Subjects by third parties.

The Data Controller also ensures with appropriate and regular backups that the Data Subject's data are protected against destruction or loss.

### 13. Remedy

Any data subject if, in his or her opinion

- a) the Data Controller restricts the enforcement of his/her rights or rejects his/her request to this effect, can initiate an investigation by the National Data Protection and Freedom of Information Authority in order to investigate the legality of the Data Controller's action.;
- b) during the processing of his personal data, the Data Controller violates the legal requirements for the processing of personal data,
  - may request the National Authority for Data Protection and Freedom of Information to initiate proceedings before the data protection authority, or
  - may apply to court against the Data Controller, and may also initiate the lawsuit before the competent court according to his place of residence or place of stay.
